

# You are invited for Research on Neurological Foot Testing

## Who can take part?

- No diabetes and neurological symptoms
- Pre-diabetes
- Type 2 Diabetes

## Recruitment

From now until 31 March 2018

## Cost

- No charge for the tests.
- Volunteers will be reimbursed travel expenses

## Principal Investigator

Dr Sharon Pek  
Principal Research Officer  
Clinical Research Unit  
Khoo Teck Puat Hospital

## Help Researchers Better Understand Diabetic Foot Testing

There are several non-invasive tests and questionnaires for foot screening. Your participation in our study will help us to establish normal and abnormal readings of these foot tests.

## What the study involves

- One questionnaire
- Four non-invasive foot tests (less than 5minutes each)
- Blood Taking

You will be reimbursed for your time and inconvenience.

Study will take approximately 40min in total and your data will be anonymized.
