

DM shared care

Be supported in your care by both a Specialist and a GP.

Regular monitoring by a GP can complement specialist diabetes care. Besides co-managing your diabetes, your GP will support you in managing your other health conditions, treating minor acute illnesses, and preventive care (e.g. vaccinations, screening).

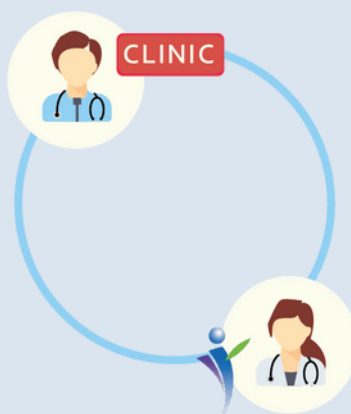

Why Participate?

Near Your Home, At Your Convenience

See a GP located near your home and reduce unnecessary trips to the specialist.

You may choose to see your GP on evenings and/or weekends.

Continue to Receive Specialist Care

You will continue to see your DM specialist.

Your GP will monitor your condition between specialist visits, and communicate with your specialist if needed.

Continue to Receive Subsidised Medications

You will continue to receive subsidised medications from AdMC Pharmacy.

Medications will be delivered to your home.
